DOMESTIC SECTION 214 APPLICATION FILED FOR CONSENT TO TRANSFER OF CONTROL OF TELEGLOBE PUERTO RICO, INC. TO SKYONLINE

STREAMLINED PLEADING CYCLE ESTABLISHED

WC Docket No. 02-268

On August 21, 2002, Telelobe USA Inc. (Debtor-in-Possession) (Telelobe **USA**), Telelobe Puerto Rico Inc. (Debtor-in-Possession) (Telelobe PR), and Telelobe Inc. (Debtor-in-Possession) (Telelobe) and Skyonline Holdings, **LLC** (Skyonline) (collectively, Applicants), pursuant to section 214 of the Communications Act of 1934, as amended 47 U.S.C. § 214, filed an application for approval to transfer control of Telelobe PR to Skyonline.¹ Prior to the requested transfer, Telelobe will transfer certain assets from Telelobe **USA** to Telelobe PR pursuant to section 63.03(d) of the Commission's rules.²

Applicants assert that this application is subject to streamlined processing under section 63.03(b)(2)(i) of the Commission's rules because the Applicants are non-dominant carriers.³

Telelobe USA is a Delaware corporation providing both facilities-based and resold telecommunications services to customers in the United States, including Puerto Rico. Telelobe **USA** is an indirect wholly-owned subsidiary of Telelobe, a provider of international telecommunications services in Canada and around the world. Telelobe PR is a Puerto Rico corporation providing Internet access, backbone and other information services from facilities located near San Juan. Telelobe PR is a directly wholly-owned subsidiary of Telelobe and a sister company of Telelobe **USA**.

¹ Other applications involving this proposed transaction have been filed at the Commission and will be processed separately. Any action on this domestic 214 application is without prejudice to Commission action on other related pending applications.

² 47 C.F.R. § 63.03(d).

³ 47 C.F.R. § 63.03(b)(2)(i).

Skyonline is a Delaware limited liability company, wholly-owned by Skyonline, Inc. Through its operating subsidiaries, Skyonline, Inc. provides data and voice communications in various Latin American countries.

As described in the Restructuring Application, on May 15, 2002, Teleglobe, along with certain of its affiliates, filed for creditor protection under the United States Bankruptcy Code with the United States Bankruptcy Court for the District of Delaware (U.S. Bankruptcy Court) to stay actions by creditors against the assets of Teleglobe located in the United States pending resolution of Teleglobe's bankruptcy proceeding under Canadian law (CCAA Proceedings). On May 28, 2002, each of Teleglobe's subsidiaries organized in the United States or in Puerto Rico including Teleglobe USA and Teleglobe PR, filed voluntary petitions for relief under the U.S. Bankruptcy Code with the U.S. Bankruptcy Court., and such debtors' Chapter 11 cases (U.S. Chapter 11 Proceedings, and together with the CCAA Proceedings, collectively, the Bankruptcy Proceedings) have been consolidated for procedural purposes only and are being administered jointly.

As part of the Bankruptcy Proceedings, Teleglobe and Teleglobe USA are undergoing a reorganization (Teleglobe Reorganization), which among other steps, involves the transfer and sale of their non-core data and other related telecommunications assets in Central and South America, including Teleglobe USA's ownership interest in the MAYA-I cable system.

As part of the Teleglobe Reorganization, on July 8, 2002, Teleglobe together with certain of its directly and indirectly wholly-owned subsidiaries, including Teleglobe USA (collectively, Sellers), and Skyonline executed a purchase agreement (Purchase Agreement), a management agreement (Management Agreement), and certain other ancillary agreements, whereby among other transactions: (i) in connection with the Purchase Agreement, Teleglobe USA will assign *pro forma* to Teleglobe PR all of its capacity and ownership rights in the MAYA-1 submarine cable, including the Cable Landing License and associated international section 214 authorization; (ii) Sellers will sell and Skyonline will purchase (A) all of the issued and outstanding equity securities of certain of Teleglobe's Latin American subsidiaries, including the shares of Teleglobe PR from Teleglobe, and (B) certain assets of Teleglobe USA and Teleglobe's Colombian subsidiary; and (iii) Skyonline will manage certain of the assets of the Sellers until the closing of the transactions described in (i) and (ii) above (Proposed Transactions). The instant application is necessitated because among the assets being transferred to Teleglobe PR is a Teleglobe USA customer contract for the provision of domestic private line service between the United States and Puerto Rico. Upon consummation of the Proposed Transactions, Skyonline will own all of the issued and outstanding stock of Teleglobe PR.

Applicants state that grant of this application will serve the public interest because it will lead to the re-emergence of stronger and better-financed competitors in the market for telecommunications services in and between Puerto Rico, the continental United States and international points. Skyonline asserts that it can operate Teleglobe PR's assets in an efficient and economical manner, and bring a stronger financial basis to these operations.
